

GLOBAL CITIZENSHIP EDUCATION SUMMER SCHOOL – MEDIA AND CRITICAL THINKING

Männisalu Holiday Center, Võsu, North-Estonia
21.-23.08.2017

Our annual global citizenship education summer school designed for teachers and youth workers takes place from the 21st to 23rd August in Võsu. This year we will be focusing on **Media literacy**. Come along to discuss how media shapes the way we perceive the world around us and learn how media literacy can help us discern fake news. We will explore the dimensions of social and mainstream media through guided workshops and stimulating discussions hosted by our guest speakers. Following our summer school tradition, we have included a showcase of new documentaries and fun cultural activities.

Estonian participants will be joined by teachers, experts and youth workers from Latvia, Lithuania and Finland, thus the program will be partially held in English. But no reason to worry, as Estonian translation will be provided.

We extend our invitation to 35 youth workers, media students and teachers from all disciplines. Kindly let us know your wish to participate by the **30th June** by filling in the registration form. We especially encourage new schools and teachers who have not yet taken part in our global citizenship education training to come join us this summer. Those of you who have previous experience from either our summer school, youth winter school or teachers' school, we ask you to invite along at least one of your colleagues to support the implementation of the knowledge in your school.

To register, please fill in the [electronic form](#). Accommodation, food and transportation between Tallinn and Võsu will be organized free of charge.
