CONVENTION ON THE RIGHTS OF THE CHILD

- adopted by the General Assembly of the United Nations in 1989
- Estonia acceded to the convention in 1991
- defines the rights of the child from birth to the age of 18
- consists of 54 articles
- in Estonia, the **Ombudsman for Children** monitors and directs compliance with the convention

CONVENTION ON THE RIGHTS OF THE CHILD

The Convention proceeds from the principle that a society has a duty to make sure that the basic needs of the child are fulfilled and to provide support for the development of the child.

The biggest global problems are the use of child labour and the lack of learning opportunities, especially in case of girls.

In October 2020, Vincent Tremeau's photo exhibition was opened at the Juhan Kuus Documentary Photo Centre to celebrate the 75th anniversary of the United Nations. The exhibition was created in cooperation with the Documentary Photo Centre and the Estonian Ministry of Foreign Affairs.
