UNESCO ASPnet in Estonia

Model United Nations

What is MUN?

- An educational role play that allows participants to learn about UN decision-making process through personal experience;
- Such simulations are being organized around the world for high school or university students;
- Different MUNs add specific features to a traditional format to meet their participants' skill level and interests.

What is EstMUN?

- an entry-level educational simulation for high school students aged 15-19;
- takes place in the framework of UNESCO ASPnet activities in Estonia;
- the leaders of EstMUN are a group of young volunteers that have international experience in MUN starting from early age;
- international = in English;
- our team is fond of experimenting with different formats.

Who is expected to participate?

- Youth of age 15-19 interested in international relations, sustainable development, diplomacy, journalism, making the world a better place, role-play and practising English in a diverse and safe environment
